Descrizione fisica	1 online resource (419 pages) : illustrations; digital, PDF file(s)
Soggetti	Medical care Public health
Lingua di pubblicazione	Finlandese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di bibliografia	Includes bibliographical references and index.
Sommario/riassunto	By analysing access to health services, the book explores the formation of health citizenship in Finland in the twentieth century. The book results in constructing four different historical layers of health citizenship, each of which emphasise different dimensions of accessibility and involve different inclusive and exclusive tensions. By exploring the topical questions of equality in health, the historical analysis makes it possible to broaden our understanding of welfare state.
