**Sommario/riassunto**

Queer survivors piece together the clues to discover their own lives! Dangerous Families: Queer Writing on Surviving goes beyond the recovery narrative to create a new queer literature of investigation, exploration, and transformation. Twenty-six stories illuminate the reality of growing up in fear, struggling to rebuild lives damaged by sexual, physical, and/or emotional abuse. The book explores how abuse turns queer survivors?male, female, and transgendered?into healers, heartbreakers, and homicidal maniacs, presenting brilliant stories that sear and soar. **Sommario/riassunto**

Australian lives are intricately enmeshed with the world, bound by ties of allegiance and affinity, intellect and imagination. In Transnational Ties: Australian Lives in the World, an eclectic mix of scholars—historians, literary critics, and museologists—trace the flow of people that helped shape Australia's distinctive character and the flow of ideas

that connected Australians to a global community of thought. It shows how biography, and the study of life stories, can contribute greatly to our understanding of such patterns of connection and explores how transnationalism can test biography's limits as an intellectual, professional and commercial practice.
