Autore	Djurkovi Djakovi Olgica
Titolo	Toxoplasmosis - recent advances
Pubbl/distr/stampa	IntechOpen, 2012 [Place of publication not identified] : , : IntechOpen, , 2012 ©2012
ISBN	953-51-7028-7
Descrizione fisica	1 online resource (202 pages)
Disciplina	616
Soggetti	MEDICAL / Infectious Diseases
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Sommario/riassunto	A ubiquitous organism able to infect all mammals and birds, which has been estimated to infect one third of the global human population, <i>Toxoplasma gondii</i> is the most successful parasite on Earth, and toxoplasmosis a major zoonotic disease. A current approach to this zoonosis is the "one health" concept, based on the understanding that a disease occurring between animals and man in a specific environment can only be dealt with at the interface of all "players" involved. This book, composed of a series of articles which integrate human and animal data on toxoplasmosis, by authors from all over the world, offers its readers a view on the current research interests and achievements.
