

1. Record Nr.	UNINA9910137668803321
Autore	William Acree
Titolo	Toxicity and Drug Testing // edited by Bill Acree
Pubbl/distr/stampa	IntechOpen, 2012 Croatia : , : IntechOpen, , 2012
ISBN	953-51-4363-8
Edizione	[1st ed.]
Descrizione fisica	1 online resource (530 pages)
Disciplina	615.9
Soggetti	Toxicology
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Sommario/riassunto	<p>Modern drug design and testing involves experimental in vivo and in vitro measurement of the drug candidate's ADMET (adsorption, distribution, metabolism, elimination and toxicity) properties in the early stages of drug discovery. Only a small percentage of the proposed drug candidates receive government approval and reach the market place. Unfavorable pharmacokinetic properties, poor bioavailability and efficacy, low solubility, adverse side effects and toxicity concerns account for many of the drug failures encountered in the pharmaceutical industry. Authors from several countries have contributed chapters detailing regulatory policies, pharmaceutical concerns and clinical practices in their respective countries with the expectation that the open exchange of scientific results and ideas presented in this book will lead to improved pharmaceutical products.</p>
