Sommario/riassunto

This edition brings back into print, after two and a half centuries, the pioneering work of English republicanism, Marchamont Nedham's *The Excellencie of a Free-State*, which was written in the wake of the execution of King Charles I. First published in 1656, and compiled from previously written editorials in the parliamentary newsbook *Mercurius Politicus*, *The Excellencie of a Free-State* addressed a dilemma in English politics, namely, what kind of government should the Commonwealth adopt? David Womersley is Thomas Warton Professor of English Literature at the University of Oxford. His most recent book is *Divinity and State*. Marchamont Nedham (1620-1678) was a polemicist, pamphleteer, and editor of *Mercurius Politicus*. Blair Worden is Emeritus Fellow of St. Edmund Hall, Oxford.
