Sommario/riassunto	<p>This document reflects recent efforts made by the OECD to obtain an accurate assessment of the current state of biotechnology statistics in OECD Member and Observer countries. The authors are grateful to Statistics Canada for the funding that made this project possible. The inventory was prepared by Brigitte van Beuzekom of the OECD's Directorate for Science, Technology and Industry, and benefited from contributions from Bill Pattinson of the OECD Secretariat and delegates involved in the OECD Ad hoc Meeting on Biotechnology Statistics.</p>
