

1. Record Nr.	UNINA9910138398203321
Autore	Cid Rigobelo Everlon
Titolo	Hypoglycemia : Causes and Occurrences // Everlon Cid Rigobelo, editor
Pubbl/distr/stampa	IntechOpen, 2011 [Place of publication not identified] : , : InTech, , [2011] ©2011
ISBN	953-51-6520-8
Descrizione fisica	1 online resource (252 pages)
Collana	NIH publication ; ; no. 09-3926
Disciplina	616.4
Soggetti	Endocrinology
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Title from title screen (viewed June 16, 2010). "October 2008"--P. [12].
Sommario/riassunto	Glucose is an essential metabolic substrate of all mammalian cells being the major carbohydrate presented to the cell for energy production and also many other anabolic requirements. Hypoglycemia is a disorder where the glucose serum concentration is usually low. The organism usually keeps the glucose serum concentration in a range of 70 to 110 mL/dL of blood. In hypoglycemia the glucose concentration normally remains lower than 50 mL/dL of blood. This book provides an abundance of information for all who need them in order to help many people worldwide.
