

1. Record Nr.	UNINA9910138442003321
Autore	Joghi Thatha Gowder Sivakumar
Titolo	Cholera // edited by Sivakumar Joghi Thatha Gowder
Pubbl/distr/stampa	IntechOpen, 2012 Rijeka : , : InTech, , 2012 ©2012
ISBN	953-51-6937-8
Descrizione fisica	1 online resource (x, 232 pages) : illustrations (some color), maps (some color)
Disciplina	616.932
Soggetti	Cholera
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di bibliografia	Includes bibliographical references.
Sommario/riassunto	Cholera, a problem in Third World countries, is a complicated diarrheal disease caused by the bacterium <i>Vibrio cholerae</i> . The latest outbreak in Haiti and surrounding areas in 2010 illustrated that cholera remains a serious threat to public health and safety. With advancements in research, cholera can be prevented and effectively treated. Irrespective of "Military" or "Monetary" power, with one's "Own Power", we can defeat this disease. The book "Cholera" is a valuable resource of power (knowledge) not only for cholera researchers but for anyone interested in promoting the health of people. Experts from different parts of the world have contributed to this important work thereby generating this power. Key features include the history of cholera, geographical distribution of the disease, mode of transmission, <i>Vibrio cholerae</i> activities, characterization of cholera toxin, cholera antagonists and preventive measures.
