

1. Record Nr.	UNINA9910138856603321
Autore	Bosq Denis <1939->
Titolo	Mathematical statistics and stochastic processes / / edited by Denis Bosq and others
Pubbl/distr/stampa	London : , : ISTE : , : John Wiley & Sons Inc., , 2012
ISBN	1-118-56202-X 1-118-58627-1 1-118-58612-3 1-299-18696-3
Edizione	[First edition]
Descrizione fisica	1 online resource (302 pages)
Collana	Applied stochastic methods series
Disciplina	519.5
Soggetti	Mathematical statistics Stochastic processes
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	pt. 1. Mathematical statistics -- pt. 2. Statistics for stochastic processes -- pt. 3. Supplement.
Sommario/riassunto	Generally, books on mathematical statistics are restricted to the case of independent identically distributed random variables. In this book however, both this case AND the case of dependent variables, i.e. statistics for discrete and continuous time processes, are studied. This second case is very important for today's practitioners. Mathematical Statistics and Stochastic Processes is based on decision theory and asymptotic statistics and contains up-to-date information on the relevant topics of theory of probability, estimation, confidence intervals, non-parametric statistics and rob
