

1. Record Nr.	UNINA9910138864903321
Titolo	Production of plasma proteins for therapeutic use [[electronic resource] /] / edited by Joseph Bertolini, Neil Goss, John Curling
Pubbl/distr/stampa	Hoboken, N.J., : John Wiley & Sons, c2013
ISBN	1-118-35680-2 1-283-89332-0 1-118-35678-0
Descrizione fisica	1 online resource (510 p.)
Altri autori (Persone)	BertoliniJoseph GossNeil CurlingJ. M (John M.)
Disciplina	615.3/9
Soggetti	Blood proteins - Therapeutic use
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	section 1. Introduction to plasma fractionation -- section 2. Plasma proteins for therapeutic use -- section 3. Pathogen safety of plasma products -- section 4. The pharmaceutical environment applied to plasma fractionation -- section 5. The market for plasma products and the economics of fractionation.
Sommario/riassunto	Sets forth the state of the science and technology in plasma protein production With contributions from an international team of eighty leading experts and pioneers in the field, Production of Plasma Proteins for Therapeutic Use presents a comprehensive overview of the current state of knowledge about the function, use, and production of blood plasma proteins. In addition to details of the operational requirements for the production of plasma derivatives, the book describes the biology, development, research, manufacture, and clinical indications of essentially al
