1.	Record Nr.	UNINA9910139029003321
	Autore	Hollander Myles
	Titolo	Nonparametric statistical methods / / Myles Hollander, Douglas A. Wolfe, Eric Chicken
	Pubbl/distr/stampa	Hoboken, New Jersey : , : John Wiley & Sons, Inc., , [2014] ©2014
	ISBN	1-118-55329-2 1-119-19603-5 1-118-67795-1 1-118-67799-4
	Edizione	[Third edition.]
	Descrizione fisica	1 online resource (844 pages)
	Collana	Wiley series in probability and statistics
	Classificazione	MAT029000
	Altri autori (Persone)	ChickenEric <1963-> WolfeDouglas A
	Disciplina	519.5/3
	Soggetti	Nonparametric statistics Mathematical statistics
	Lingua di pubblicazione	Inglese
	Formato	Materiale a stampa
	Livello bibliografico	Monografia
	Note generali	Bibliographic Level Mode of Issuance: Monograph
	Nota di bibliografia	Includes bibliographical references and indexes.
	Sommario/riassunto	"Written by leading statisticians, this new edition has been completely updated to include additional modern topics and procedures, more real-world data sets, and more problems from real-life situations. Incorporating the R software program, this user-friendly book provides readers with an arsenal of nonparametric techniques, helping them develop the insight needed to choose appropriate procedures for various situations. It features five new chapters with added-on topics including Density Estimation, Kernel Regression, Nonparametric Regression, Ranked-Set Sampling, and Bayesian Nonparametrics"-- "In this third edition we have improved the eleven chapters of the second edition and added five new chapters. Also organized all of the R programs used in this third edition into a documented collection that is formally registered as an R package specifically linked to this third edition. "--
