

1. Record Nr.	UNINA9910139036403321
Autore	Choi Byoung Kyu <1949->
Titolo	Modeling and simulation of discrete-event systems [[electronic resource] /] / Byoung Kyu Choi, Donghun Kang
Pubbl/distr/stampa	Hoboken, N.J., : John Wiley & Sons Inc., 2013
ISBN	1-118-73276-6 1-118-73279-0 1-118-73285-5
Descrizione fisica	1 online resource (427 p.)
Altri autori (Persone)	KangDonghun <1981->
Disciplina	003/.83
Soggetti	Discrete-time systems - Simulation methods
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Includes index.
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	pt. I. Basics of system modeling and simulation -- pt. II. Fundamentals of discrete-event system modeling and simulation -- pt. III. Advances in discrete-event system modeling and simulation.
Sommario/riassunto	Computer modeling and simulation (M&S) allows engineers to study and analyze complex systems. Discrete-event system (DES)-M&S is used in modern management, industrial engineering, computer science, and the military. As computer speeds and memory capacity increase, so DES-M&S tools become more powerful and more widely used in solving real-life problems. Based on over 20 years of evolution within a classroom environment, as well as on decades-long experience in developing simulation-based solutions for high-tech industries, Modeling and Simulation of Discrete-Event Systems is the
