Sommario/riassunto	Discusses the challenges of intercultural communication in engineering, technical, and related professional fields Given today's globalized technical and engineering environment, intercultural communication is an essential topic for engineers, other technical

professionals, and technical communicators to learn. Engineering programs, in particular, need to think about how to address the ABET requirement for students to develop global competence and communication skills. This book will help readers learn what intercultural communication is like in the workplace-which is an import
