Sommario/riassunto	This text tells the sweeping historical drama of the ascent of globalization, from the Second World War to the present day. The story is told through the richly detailed accounts of eighteen remarkable men and women, describing how these architects reshaped the modern world, for better or worse.

Sommario/riassunto

The papers in this book describe and analyze rare in individual languages, covering an extraordinarily broad geographic distribution, including papers about languages from all over the globe. The range of theoretical subjects discussed shows an enormous breadth, ranging from phonology through word formation, lexical semantics to syntax and even some sociolinguistics.
