Sommario/riassunto

Locating Neoliberalism in East Asia: Neoliberalizing Spaces in Developmental States examines the influence of neo-liberal ideologies on urban and regional policies and practices in several Asian Pacific nations. Represents one of the few studies of neoliberal changes in East Asia, one of the most important topics in social science research over the past two decades. Considers the Asian perspective by focusing on readings from Asian experts. Pays special attention to the 'spatial' dimension of the East Asian neoliberalization. Examines the infl
