Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Periodico
Note generali	Refereed/Peer-reviewed
Sommario/riassunto	The Journal of the Text Encoding Initiative is the official journal of the Text Encoding Initiative consortium. It publishes the proceedings of the annual TEI Conference and Members' Meeting and special thematic issues: reports on electronic textual editing, current trends in TEI encoding, and new use cases for TEI. It furthermore provides a forum for articles on the discussion of the interface between the TEI and other communities, and more generally of the role of technological standards in the digital humanities, including digital scholarly editing, linguistic analysis, corpora creation, and newer areas such as mass digitization, semantic web research, and editing within virtual worlds.
