Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	Avant-propos -- Remerciements -- Préface -- Arbres généalogiques -- Prologue -- Chapitre 1. Des Escoumins à Hanmer (1891–1906) -- Chapitre 2. Le nouveau venu (1858–1906) -- Chapitre 3. Le rond-point (1906–1916) -- Chapitre 4. Vie de famille (1916–1928) -- Chapitre 5. « Veuve » avec trois enfants (1928–1935) -- Chapitre 6. Tirer le diable par la queue (1935–1944) -- Chapitre 7. Nanny (1944–1965) -- Chapitre 8. Retour aux sources (1960–1964) -- Chapitre 9. Vieillesse, humour et tendresse (1965–1970) -- Chapitre 10. Vivre la paix (1970–1973) -- Épilogue -- Postface -- Traduction des extraits écrits en anglais dans le texte -- Appendices -- Liste des personnes interviewées -- Liste des personnes qui m'ont aidée dans mes recherches -- Photos de famille -- Documents -- Bibliographie -- Chronologie abrégée -- Index.
Sommario/riassunto	La biographie de Marie-Louise Bouchard Labelle raconte la vie d'une jeune Canadienne d'humble origine qui tombe en amour avec le cure de son village, et qui en subit les terribles conséquences pour le reste de ses jours. L'histoire de cette femme s'étend sur plus d'un siècle (de 1858 à 1973), une période qui voit surgir plusieurs événements

Sommario/riassunto

This textbook explains what pharmacy students and practicing pharmacists need to know about pharmacy and the law, including recent changes in the National Health Service. The book provides easy accessibility and concise, yet comprehensive information. There have been many changes in the NHS and in the law relating to pharmacy since the first edition was written. Therefore, the book has been thoroughly revised, and the text re-organized.

4. Record Nr.	UNINA9910811595203321
Titolo	Surface engineering for corrosion and wear resistance // edited by J.R. Davis
Pubbl/distr/stampa	Materials Park, OH, : ASM International, : IOM Communications, c2001

Edizione	[1st ed.]
Descrizione fisica	1 online resource (288 p.)
Altri autori (Persone)	Davis J. R (Joseph R.)
Disciplina	620.1/1223
Soggetti	Corrosion and anti-corrosives Mechanical wear Surfaces (Technology)
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	"IOM book no. B751."
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	Contents; Preface; CHAPTER 1: Introduction to Surface Engineering for Corrosion and Wear Resistance; CHAPTER 2: Principles of Corrosion; CHAPTER 3: Principles of Friction and Wear; CHAPTER 4: Surface Engineering to Change the Surface Metallurgy; CHAPTER 5: Surface Engineering to Change the Surface Chemistry; CHAPTER 6: Surface Engineering to Add a Surface Layer or Coating; CHAPTER 7: Process Comparisons; CHAPTER 8: Practical Design Guidelines for Surface Engineering; Glossary; Index
Sommario/riassunto	Engineers are faced with a bewildering array of choices when selecting a surface treatment for a specific corrosion or wear application. This book provides practical information to help them select the best possible treatment. An entire chapter is devoted to process comparisons, and dozens of useful tables and figures compare surface treatment thickness and hardness ranges; abrasion and corrosion resistance; processing time, temperature, and pressure; costs; distortion tendencies; and other critical process factors and coating characteristics. The chapter Practical Guidelines for Surface Engin
