

1. Record Nr.	UNINA9910139500403321
Titolo	Dynamics of large herbivore populations in changing environments [[electronic resource]] : towards appropriate models / / edited by Norman Owen-Smith
Pubbl/distr/stampa	Hoboken, NJ, : Wiley-Blackwell, 2010
ISBN	1-282-45663-6 9786612456633 1-4443-1859-4 1-4443-1860-8
Descrizione fisica	xiii, 201 p
Altri autori (Persone)	Owen-SmithR. Norman
Disciplina	599.6/17
Soggetti	Ungulates - Ecology Herbivores - Ecology Mammal populations - Mathematical models Electronic books.
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	"This book originated from a working group established at the National Center for Ecological Analysis and Synthesis (NCEAS) at the University of California, Santa Barbara"--Pref.
Nota di contenuto	Definitive case studies / Norman Owen-Smith and Jason P. Marshal -- The suite of population models / Norman Owen-Smith -- Climatic influences : temperate-tropical contrasts / Norman Owen-Smith -- Demographic processes : lessons from long-term, individual-based studies / Jean-Michel Gaillard, Tim Coulson and Marco Festa-Bianchet -- Irruptive dynamics and vegetation interactions / John E. Gross, Iain J. Gordon and Norman Owen-Smith -- How does landscape heterogeneity shape dynamics of large herbivore populations? / N. Thompson Hobbs and Iain J. Gordon -- Towards an ecology of population dynamics / Norman Owen-Smith.
