

1. Record Nr.	UNINA9910139507003321
Titolo	Critical pathways to success in CNS drug development [[electronic resource]] / Neal R. Cutler ... [et al.]
Pubbl/distr/stampa	Chichester, UK ; ; Hoboken, NJ, : Wiley-Blackwell, 2010
ISBN	1-282-49126-1 9786612491269 1-4443-1857-8 1-4443-1858-6
Descrizione fisica	1 online resource (273 p.)
Altri autori (Persone)	CutlerNeal R
Disciplina	615
Soggetti	Neuropsychopharmacology Drug development Critical path analysis Central nervous system - Effect of drugs on - Research - Methodology
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	Critical Pathwaysto Success in CNSDrug Development; Contents; Acknowledgments; Foreword; 1 The impending crisis in CNS drug development; 2 Animal models and procedures for CNS disorders; 3 Preclinical antecedents to early human clinical trials; 4 Biomarkers and surrogate markers in drug development; 5 Neuroimaging and cognitive assessments in early drug development; 6 Bridging and CSF studies; 7 A case study from preclinical to early clinical trials; Index
Sommario/riassunto	Covering the latest advances in CNS drug development, this book will guide all those involved in pre-clinical to early clinical trials. The authors describe how recent innovations can accelerate the development of novel CNS compounds, improve early detection of efficacy and toxicity signals, and increase the safety of later-stage clinical trials. The current crisis in the drug development industry is critically reviewed, as well as the steps needed to correct the problems, including new government-backed regulations and industry-based innovations designed to accelerate CNS drug development i
