Sommario/riassunto

An insightful examination of the changing relationship between Asia and the United States In this lucidly written and thought-provoking book, author Simon Tay highlights the accelerating trends that point to Asia increasingly forging its own path, independent of the United States. He also describes the fundamental changes and new policy directions needed to maintain and strengthen the bonds between Asia and the United States that have been beneficial to both since the end of the Second World War. On the eve of the global financial crisis of 2008, the economies of the United Stat
