Sommario/riassunto	Let's face it, economics can be boring...but we all need a decent understanding of the basics if we want to survive in these difficult and

uncertain times. Let's make it more interesting. Easy Economics isn't packed with reams of text or stacks of numbers, this book is visual and engaging. The book aims to bring you up to speed, in a way that entertains while it informs, through a collection of many of the most frequently asked questions--plus some you probably haven't thought of--on the subject of economics. The topics range from: The difference between Debt and Deficit</div>
