ISBN	9786613175717 9781283175715 1283175711 9781118025697 1118025695 9781118025710 1118025717 9781118025673 1118025679
Edizione	[1st ed.]
Descrizione fisica	1 online resource (446 p.)
Collana	Studies in viral ecology ; ; v. 2
Altri autori (Persone)	HurstChriston J
Disciplina	579.2 579.217
Soggetti	Viruses - Ecology
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Includes index.
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	section 1. An introduction to the structure and behavior of viruses -- section 2. Viruses of macroscopic animals.
Sommario/riassunto	This book explains the ecology of viruses by examining their interactive dynamics with their hosting species (in this volume, in animals), including the types of transmission cycles that viruses have evolved encompassing principal and alternate hosts, vehicles and vectoring species. Examining virology from an organismal biology approach and focusing on the concept that viral infections represent areas of overlap in the ecologies of the involved species, Viral Ecology is essential for students and professionals who either may be non-virologists or virologists whose previous familiarity h
