

1. Record Nr.	UNINA9910464712403321
Autore	Coarelli Filippo
Titolo	Rome and environs : an archaeological guide // Filippo Coarelli ; translated by James J. Clauss and Daniel P. Harmon ; illustrations adapted by J. Anthony Clauss and Pierre A. MacKay
Pubbl/distr/stampa	Berkeley, California ; ; London, England : , : University of California Press, , 2014 ©2014
ISBN	0-520-95780-6
Edizione	[Updated edition.]
Descrizione fisica	1 online resource (622 p.)
Collana	Joan Palevsky Imprint in Classical Literature
Disciplina	937/.6
Soggetti	SOCIAL SCIENCE / Archaeology Electronic books. Rome (Italy) Antiquities Guidebooks Rome Region (Italy) Antiquities Guidebooks
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	Front matter -- Contents -- Translators' Preface -- Introduction -- City Walls -- Capitoline -- Roman Forum -- Imperial Fora -- Palatine -- Valley of the Colosseum -- Esquiline -- Caelian -- Quirinal, Viminal, and the Via Lata -- Campus Martius -- Forum Holitorium, Forum Boarium, Circus Maximus, and the Baths of Caracalla -- Aventine, Trastevere, and the Vatican -- Via Appia -- Eastern Environs: Viae Latina, Praenestina, Labicana, Tiburtina -- Northern Environs: Viae Salaria, Nomentana, Flaminia, Cassia -- Western Environs: Viae Aurelia, Campana, Ostiensis -- Aqueducts -- Ostia -- Tivoli and the Tiburtine Territory -- The Alban Hills and Praeneste -- Appendix -- Bibliography -- Illustration Sources -- Index
Sommario/riassunto	This superb guide brings the work of Filippo Coarelli, one of the most widely published and well-known scholars of Roman topography, archeology and art, to a broad English-language audience. Conveniently organized by walking tours and illustrated throughout with clear maps, drawings, and plans, Rome and Environs: An Archaeological Guide covers all of the major, and an unparalleled

number of minor, ancient sites in the city, and, unlike most other guides of Rome, includes major and many minor sites within easy reach of the city, such as Ostia Antica, Palestrina, Tivoli, and the many areas of interest along the ancient Roman roads. An essential resource for tourists interested in a deeper understanding of Rome's classical remains, it is also the ideal book for students and scholars approaching the ancient history of one of the world's most fascinating cities. • Covers all the major sites including the Capitoline, the Roman Forum, the Imperial Fora, the Palatine Hill, the Valley of the Colosseum, the Esquiline, the Caelian, the Quirinal, and the Campus Martius. • Discusses important clusters of sites-one on the area surrounding Circus Maximus and the other in the vicinity of the Trastevere, including the Aventine and the Vatican. • Covers the history and development of the city walls and aqueducts. • Follows major highways leading outside of the city to important and fascinating sites in the periphery of Rome. • Features 189 maps, drawings, and diagrams, and an appendix on building materials and techniques. • Includes an updated and expanded bibliography for students and scholars of Ancient Rome.

2. Record Nr.	UNINA9910139647103321
Titolo	Parkinson's disease [[electronic resource]] : non-motor and non-dopaminergic features // edited by C. Warren Olanow, Fabrizio Stocchi, Anthony E. Lang
Pubbl/distr/stampa	Chicester, : Wiley, 2011
ISBN	1-283-17844-3 9786613178442 1-4443-9797-4 1-4443-9795-8

Nota di contenuto	<p>Parkinson's Disease : Non-Motor and Non-Dopaminergic Features; Contents; List of Contributors; 1 The Dopaminergic and Non-Dopaminergic Features of Parkinson's Disease; 2 Neuropathologic Involvement of the Dopaminergic Neuronal Systems in Parkinson's Disease; 3 Non-Dopaminergic Pathology of Parkinson's Disease; 4 Functional Anatomy of the Motor and Non-Motor Circuitry of the Basal Ganglia; 5 Functional Organization of the Basal Ganglia: Dopaminergic and Non-Dopaminergic Features; 6 Anatomy and Physiology of Limbic System Dysfunction in Parkinson's Disease</p> <p>7 Animal Models of Parkinson's Disease: the Non-Motor and Non-Dopaminergic Features8 The Emerging Entity of Pre-Motor Parkinson's Disease; 9 Functional Imaging Studies in Parkinson's Disease: the Non-Dopaminergic Systems; 10 Assessment of Non-Motor Features of Parkinson's Disease: Scales and Rating Tools; 11 Clinical Trial Measures of the Non-Motor Features of Parkinson's Disease; 12 Clinical Features of Dementia Associated with Parkinson's Disease and Dementia with Lewy Bodies; 13 Neuropsychologic Features of Parkinson's Dementias; 14 Neuropathology of Dementia in Parkinson's Disease</p> <p>15 Treatment of Dementia Associated with Parkinson's Disease16 Psychosis in Parkinson's Disease; 17 Depression in Parkinson's Disease; 18 Anxiety Syndromes and Panic Attacks; 19 Dopamine Dysregulation Syndrome; 20 Neurobiology of Impulse Control Disorders in Parkinson's Disease; 21 Sleep Disorders in Parkinson's Disease; 22 Neuronal Mechanisms of REM Sleep and Their Role in REM Sleep Behavior Disorder; 23 REM Sleep Behavior Disorder and Neurodegenerative Disorders; 24 Gastrointestinal and Swallowing Disturbances in Parkinson's Disease</p> <p>25 Bladder Dysfunction in Parkinson's Disease and Other Parkinsonism26 Orthostatic Hypotension in Parkinson's Disease; 27 Sexual Dysfunction; 28 Olfactory Dysfunction; 29 Pain and Paresthesia in Parkinson's Disease; 30 Restless Legs Syndrome and Akathisia in Parkinson's Disease; 31 Speech and Voice Disorders in Parkinson's Disease; 32 Gait, Postural Instability, and Freezing; 33 Orthopedic Complications of Parkinson's Disease; 34 Other Non-Motor Symptoms of Parkinson's Disease; 35 Overview of the Medical Treatment of the Non-Motor and Non-Dopaminergic Features of Parkinson's Disease</p> <p>36 Surgery for Non-Dopaminergic and Non-Motor Features of Parkinson's Disease37 Effects of Exercise on Basal Ganglia Function in Parkinson's Disease and Its Animal Models; 38 Non-Dopaminergic Approaches to the Treatment of Parkinson's Disease; 39 Prospects for Neuroprotective Therapies That Can Modulate Non-Dopaminergic Features in Parkinson's Disease; Index; Colour plate section can be found facing p. 182</p>
Sommario/riassunto	<p>Parkinson's Disease has traditionally been seen as a movement disorder, and diagnosed by the development of tremor. However, we are beginning to understand that the disease manifests itself in many ways, and that earlier diagnosis might be possible through non-tremor symptoms. This textbook aims to tell the full story of non-motor and non-dopaminergic features of Parkinson's Disease.</p>
