Sommario/riassunto	Nurse Prescribing in Mental health is a practical handbook for mental health nurses who are being training, have aspirations to train or who are trained in nurse prescribing. It introduces the reader to the different types of nurse prescribing and how they can be used in practice, now and in the future and reflects on the myriad of issues that

are facing novice and experienced nurse prescribers. These include inter-professional relationships, team work, ethical and legal issues, governance and patient safety. The text goes on to explore the different types of medicines commonly p
