

1. Record Nr.	UNINA9910139917703321
Autore	Jevon Philip
Titolo	ECGs for nurses [[electronic resource] /] / Philip Jevon
Pubbl/distr/stampa	Chichester, West Sussex, UK ; ; Ames, Iowa, : Wiley-Blackwell, c2009
ISBN	1-282-29200-5 9786612292002 1-4443-1838-1 1-4443-0999-4
Edizione	[2nd ed.]
Descrizione fisica	1 online resource (298 p.)
Collana	Essential clinical skills for nurses
Altri autori (Persone)	KhanJawad M
Disciplina	616.1/207547
Soggetti	Electrocardiography Arrhythmia - Nursing
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	ECGs for Nurses, Second Edition; Contents; Foreword; Acknowledgements; 1: The Conduction System in the Heart; 2: Principles of ECG Monitoring; 3: ECG Interpretation of Cardiac Arrhythmias; 4: Cardiac Arrhythmias Originating in the SA Node; 5: Cardiac Arrhythmias Originating in the Atria; 6: Cardiac Arrhythmias Originating in the AV Junction; 7: Cardiac Arrhythmias Originating in the Ventricles; 8: Cardiac Arrhythmias with Atrioventricular Block; 9: Cardiac Arrhythmias Associated with Cardiac Arrest; 10: Recording a 12 Lead ECG; 11: Interpreting a 12 Lead ECG 12: Management of Peri-arrest Arrhythmias 13: Record Keeping; Appendix; Index
Sommario/riassunto	ECGs for Nurses provides everything the nurse needs to know about the electrocardiogram. Accessible yet comprehensive, and packed with case studies, this portable guide enables nurses to become skilled practitioners in an area often seen as highly complex. Using real ECG traces as examples, possible effects on the patient and treatment options are discussed, with a focus on the role of the nurse. This fully illustrated second edition remains the essential reference guide for nurses working in all acute areas, as well as general nurses and students learning about ECGs for the first time.<
