

1. Record Nr.	UNINA9910140032003321
Titolo	Negro digest
Pubbl/distr/stampa	Chicago, Ill., : Johnson Pub. Co., 1942-1970
Descrizione fisica	1 online resource
Altri autori (Persone)	JohnsonJohn H <1918-2005.> (John Harold)
Disciplina	325.260973
Soggetti	African Americans
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Periodico
Note generali	Editor: J.H. Johnson.
2. Record Nr.	UNINA9910522563803321
Autore	Muneer T (Tariq)
Titolo	The Coming of Age of Solar and Wind Power // by Tariq Muneer, Eulalia Jadraque Gago, Saioa Etxebarria Berrizbeitia
Pubbl/distr/stampa	Cham : , : Springer International Publishing : , : Imprint : Springer, , 2022
ISBN	3-030-92010-0
Edizione	[1st ed. 2022.]
Descrizione fisica	1 online resource (255 pages)
Collana	Green Energy and Technology, , 1865-3537
Disciplina	333.794 621.312136
Soggetti	Renewable energy sources Wind power Solar energy Photovoltaic power generation Sustainability Power resources Renewable Energy Wind Energy Solar Thermal Energy Photovoltaics Natural Resource and Energy Economics

Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di bibliografia	Includes bibliographical references.
Nota di contenuto	Chapter 1. Introduction -- Chapter 2. Solar and wind energy technologies -- Chapter 3. Wind energy and solar PV developments in China -- Chapter 4. Wind energy and solar PV developments in the EU -- Chapter 5. Wind energy and solar PV developments in Japan -- Chapter 6. Wind energy and solar PV developments in USA.
Sommario/riassunto	This book focuses on the current situation of two technologies for electricity production from renewable energy sources, wind and solar photovoltaic energy, analysing and describing both technologies in detail. Four regions of the world, with distinct energy markets and conditions, are explored. Together, the USA, Europe, China and Japan represent one third of the world's population and occupy 25% of the planet, therefore offering a representation of a global picture. In each of these regions, the development of the solar and wind energy is examined, and the economic implications are described.
