Sommario/riassunto	The first comprehensive guide to trading a unique class of options to manage risk and make smarter bets during volatile trading Providing savvy market players with a way to react quickly to event-driven opportunities and trends, exchange traded binary options are a unique type of derivative instrument offering fixed risk and reward. Available on four asset classes-stock index futures, commodity futures, Spot Forex and economic data releases-they are distinctly different from regular put/call options in that their pay-out structure offers only two potential outcomes, or settlement value
