Sommario/riassunto	The purpose of this work is to offer the Spanish-speaking reader the American constitutional texts in a bilingual version, using guaranteed sources of the originals, and contrasting them with a translation that is as precise as possible in which the legal aspects have been specially taken care of. Since the work is limited to the Federal Constitution and its amendments, the order of the documents is strictly chronological. The form of presentation is: the title of the document, its date, the font used, the pertinent notes on the edition and some historical notes that allow the reader to place the document in its context.
