Sommario/riassunto	In a world where technology controls everything, sometimes your own handwriting is the only thing you can trust. Richard Henley is an ordinary man leading an ordinary life, but when he finds strange notes in his own handwriting warning that someone is trying to kill him, he is sent on a journey to places he never knew existed. With an ominous and all-powerful organisation on his trail, his only hope is to trust unexpected allies, take control of his life, and uncover the truth about what happened to the girl he loved twenty years ago. A darkly humorous commentary on our app-obsessed culture, if Richard can stay alive, his world will never be the same again.
