| Sommario/riassunto | Accidents often occur not only through the fault of the wrongdoer but also partly through the conduct of the injured party. This contributory conduct of the injured party and its consequences for the delictual liability of the wrongdoer have been central issues in the study of private law for centuries. In <i>Contributory Negligence. A Historical and Comparative Study</i> Van Dongen presents a detailed study of how from Antiquity to today the negligent behaviour of the injured party has influenced claims for damages based on delictual liability and how it evolved into the modern concept of contributory negligence. His research comprises a comparative legal study of the main current developments concerning the concept of contributory negligence in France, Germany and the Netherlands. |

| Sommario/riassunto | Dealing with Alps today means to approach a great complexity and variety of themes, given the vastness of territory, the consistence and variety of inhabitants, the diversity and different rapidity of the transformation processes, that are taking place since more than 100 years, differently and in different periods in every part of the mountain chain, some of which still ongoing. Sich heute mit den Alpen zu befassen bedeutet eine Reihe großer und unterschiedlicher Themen anzugehen, Themen, die von der Vielfalt und Ausdehnung des Territoriums, der Größe und der Vielfalt der Bevölkerung, der Verschiedenheit und der unterschiedlichen Geschwindigkeit der Umwandlungsprozesse abhängen, die seit mehr als einem Jahrhundert und in verschiedenster Weise die große Gebirgskette der Alpen mit ihren diversen Teilen beeinflusst, welche diese Vorgänge zu verschiedenen Zeitpunkten und in unterschiedlicher Weise erlebt und erlitten haben oder noch erleiden. Dieser Band |

vereinigt die Beiträge maßgeblicher Exponenten aus der Welt der Kultur, der Politik und der Wirtschaft, die ihre Thesen und Ergebnisse anlässlich der Fünften Internationalen Tagung der Rete Montagna in Chiavenna (I) und Castasegna (CH) zum Thema „Die Alpen im Wandel zwischen Risiken und Chancen“ vortrugen.
