Sommario/riassunto	The focus of this carefully selected volume concerns the existence, frequency, and form of composite/complex predicates (the "take a look" construction) in earlier periods of the English language, an area of scholarship which has been virtually neglected. The various contributions seek to understand the collocational and idiomatic

aspects of these structures, as well as of related structures such as complex prepositions (e.g., "on account of") and phrasal verbs (e.g., "look up"), in their earliest manifestations. Moreover, study of these constructions at the individual stages of English leads

Sommario/riassunto	This publication is based on a research project "Zukünftige Entwicklungsstrategien für den Biosphärenpark Großes Walsertal (Future strategies for the development of the biosphere reserve Grosses Walsertal)", a regional economic and perceptual geographic analysis. This project aimed at an application-oriented contribution towards a social-regional concomitant research in protected areas. This approach fosters self-conception of biosphere reserves as "model regions for sustainable development". Diese Publikation basiert auf den Ergebnissen des Forschungsprojektes „Zukünftige Entwicklungsstrategien für den Biosphärenpark Großes Walsertal. Eine regionalwirtschaftliche und perceptionsgeographische Analyse“. Das Forschungsvorhaben setzte sich zum Ziel, einen

anwendungsorientierten Beitrag zur sozial- und regionalwissenschaftlichen Begleitforschung in Schutzgebieten zu leisten. Dies ist in Biosphärenreservaten (in Österreich Biosphärenpark genannt) insofern relevant, als sich diese in ihrem Selbstverständnis als „Modellregionen für eine nachhaltige Entwicklung“ sehen.
