

1. Record Nr.	UNINA9910140554003321
Titolo	Adipose tissue in health and disease // edited by Todd Leff and James G. Granneman
Pubbl/distr/stampa	Weinheim, : Wiley-Blackwell, 2010
ISBN	9786612681677 9781282681675 1282681672 9783527629527 3527629521 9783527629534 352762953X
Descrizione fisica	1 online resource (532 p.)
Altri autori (Persone)	LeffTodd <1954-> GrannemanJames G
Disciplina	571.57 22 611.01827
Soggetti	Adipose tissues Fat cells
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	pt. 1. Adipose tissue development and morphology -- pt. 2. Metabolic functions of adipose tissue -- pt. 3. Endocrine functions of adipose tissue -- pt. 4. Adipose tissue and disease.
Sommario/riassunto	This timely and most comprehensive reference available on the topic covers all the different aspects vital in the fight against the global obesity epidemic. Following a look at adipose tissue development and morphology, the authors go on to examine its metabolic and endocrine functions and its role in disease. The final section deals with comparative and evolutionary aspects of the tissue. The result is an essential resource for cell and molecular biologists, physiologists, biochemists, pharmacologists, and those working in the pharmaceutical industry.
