

1. Record Nr.	UNINA9910140761803321
Titolo	Hemostasis and thrombosis in obstetrics & gynecology [[electronic resource] /] / Michael J. Paidas ... [et al.]
Pubbl/distr/stampa	Chichester, U.K., : Wiley-Blackwell, 2011
ISBN	1-282-84949-2 9786612849497 1-4443-2833-6 1-4443-2834-4
Descrizione fisica	1 online resource (234 p.)
Altri autori (Persone)	PaidasMichael J
Disciplina	618.3
Soggetti	Complicacions en l'embaràs Trastorns de la coagulació sanguínia Hemostàsia Trombosi Blood coagulation disorders in pregnancy Women - Diseases Hemostasis Thrombosis Pregnancy - Complications Llibres electrònics
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	Hematologic changes in pregnancy -- Red cell disorders -- Hemolytic disease of the newborn -- Maternal and fetal thrombocytopenia -- Inherited and acquired thrombophilia in obstetrics -- Anticoagulant therapy during pregnancy and gynecology -- Inherited bleeding disorders in obstetrics -- Inherited bleeding disorders in gynecology -- Postpartum hemorrhage -- Disseminated intravascular coagulation -- Transfusion of blood and blood products in obstetrics.
Sommario/riassunto	Reproductive hemostasis: A global approach to a global challenge A hemostatic change in women through their reproductive lifetime is emerging as an issue of global importance. No wonder, as obstetric

hemorrhage remains a major cause of maternal mortality in both developed and developing countries. Thrombophilias and pulmonary embolisms are a threat to maternal and fetal well-being. Hemostasis and Thrombosis in Obstetrics & Gynecology provides a framework for assessing and managing hemostatic disorders in women. Written by an international team, it provides globally applicable
