

1. Record Nr.	UNINA9910140813103321
Titolo	Natural ventilation for infection control in health-care settings // edited by: James Atkinson ... [et al.]
Pubbl/distr/stampa	Geneva, : World Health Organization, 2009
ISBN	1-282-69717-X 9786612697173 92-4-068517-0
Edizione	[1st ed.]
Descrizione fisica	1 online resource (131 p.)
Altri autori (Persone)	AtkinsonJames
Disciplina	628.5/3
Soggetti	Ventilation Infection - Prevention Health facilities - Heating and ventilation
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references.
Nota di contenuto	TITLE; COPYRIGHT; Contents; Annex
Sommario/riassunto	Adequate ventilation can reduce the transmission of infection in health-care settings. Natural ventilation can be one of the effective environmental measures to reduce the risk of spread of infections in health care. This guideline first defines ventilation and then natural ventilation. It explores the design requirements for natural ventilation in the context of infection control, describing the basic principles of design, construction, operation and maintenance for an effective natural ventilation system to control infection in health-care settings.
