Testing; CHAPTER 17: Ambulatory Reflux Monitoring; CHAPTER 18: Gastric Motility Testing  
CHAPTER 19: Capsule Endoscopy for Esophageal DiseaseCHAPTER 20: Unsedated Endoscopy; PART 4: Problem-based Approach to Diagnosis and Differential Diagnosis; CHAPTER 21: General Approach to History Taking and Physical Exam of the Upper Gastrointestinal Tract; CHAPTER 22: Heartburn and Regurgitation; CHAPTER 23: Chest Pain; CHAPTER 24: Dysphagia; CHAPTER 25: Rumination; CHAPTER 26: Halitosis; CHAPTER 27: Hiccups; CHAPTER 28: Dyspepsia and Indigestion; CHAPTER 29: Nausea and Vomiting; CHAPTER 30: Hematemesis; PART 5: Diseases of the Esophagus; CHAPTER 31: Gastroesophageal Reflux Disease  
CHAPTER 32: Extraesophageal Gastroesophageal Reflux DiseaseCHAPTER 33: Barrett Esophagus; CHAPTER 34: Eosinophilic Esophagitis; CHAPTER 35: Esophageal Motility Disorders; CHAPTER 36: Infections in the Immunocompetent and Immunocompromised Patient; CHAPTER 37: Strictures, Rings, and Webs; CHAPTER 38: Medication-induced Esophageal Disease; CHAPTER 39: Radiation Injury; CHAPTER 40: Caustic Esophageal Injury; CHAPTER 41: Surgery for Benign Esophageal Disease; CHAPTER 42: Esophageal Cancer; PART 6: Diseases of the Stomach; CHAPTER 43: Peptic Ulcer Disease; CHAPTER 44: Helicobacter pylori  
CHAPTER 45: GastritisCHAPTER 46: Gastroparesis; CHAPTER 47: Non-variceal Upper Gastrointestinal Bleeding; CHAPTER 48: Gastric Adenocarcinomas; CHAPTER 49: Other Gastric Tumors(Benign and Malignant); CHAPTER 50: Eosinophilic Gastroenteritis; CHAPTER 51: Hernias and Volvulus; CHAPTER 52: Surgery for Peptic Ulcer Disease; CHAPTER 53: Esophageal and Gastric Involvement in Systemic and Cutaneous Diseases; PART 7: Functional Disease; CHAPTER 54: Functional Esophageal Disorders; CHAPTER 55: Functional Gastroduodenal Disorders; Index

---

## Sommario/riassunto

This comprehensive resource for fellows/trainees and candidates for recertification in gastroenterology summarizes the field in a modern, fresh format. Prominent experts from around the globe write on their areas of expertise, and each chapter follows a uniform structure. The focus is on key knowledge, with the most important clinical facts highlighted in boxes. Color illustrations reinforce the text.

| Sommario/riassunto      | This book is proposed to be a collection of excellently peer-reviewed research from the 2023 14th International Conference on Environmental Science and Development (ICESD 2023), which will be held during May 25-27, 2023, in Xiamen, China. ICESD 2023 will gather innovative academics and industrial experts to a common forum to facilitate the exchange of scientific information and its application in the field of Environmental Science and Sustainable Development. |

Particularly, a large amount of the research is related to the Water Governance Programme which is an initiative as developed by the China International Center for Economic and Technical Exchanges, United Nations Development Programme, and Coca-Cola China. Recently, effects of energy crisis, water scarcity, environmental pollution, climate change, COVID-19 pandemic, and their interactions on eco-environment and health have caused extraordinary risks in socio-economic and environmental systems (SEE). Such risks feature dynamic, uncertain, and interactive characteristics. In order to tackle these risks, cutting-edge technologies, including both experimental approaches and modeling ones, are desired urgently. Particularly, nature-based solutions will be developed to help achieve net-zero emission and United Nations Sustainable Development Goals. In addition, data-driven and AI-based methodologies will be developed to facilitate policy analysis of SEE under New Normal scenarios. Furthermore, the combinations of multiple approaches are expected to support the enhancement of SEE resilience in a post-pandemic future. Consequently, ICESD 2023 will include presentations in the field of Water Resources Management, Wastewater Treatment, Drinking Water Safety, Energy and Environmental Systems Analysis, Air Pollution Control, Solid Waste Management, Sustainable Development, Ecosystem Restoration, Climate Change Adaptation, and Socio-economic and Environmental Management. Excellent papers related to these topics would be enclosed in this proposed book.
