Sommario/riassunto

Urban regeneration is a key focus for public policy throughout Europe. This book examines social sustainability and analyses its meaning and significance - an area of research which has, until now, been comparatively neglected. The authors offer a comprehensive European perspective to identify best practice in sustainable urban regeneration in five major cities in Spain, Italy, Netherlands, Germany, and the UK. Urban Regeneration & Social Sustainability: best practice from European cities examines the extent to which social sustainability is incorporated within urban regeneration pro
