Managing children's worry -- Treatment session nine. Managing really difficult behaviour : time out & consequences -- Treatment session ten. Wrapping up : review, managing school, celebration.
Sommario/riassunto	This book is an essential manual for mental health professionals who work with young anxious children and their parents. Organised into a

10-session parenting-based course, the book provides parents with simple cognitive behavioural techniques for helping their children to manage their worries and fears. The first manual designed specifically to help therapists take parents through a step-by-step approach to managing young anxious children. The manual's empirical focus is highly effective in treating anxiety disorders in children under the age of 10. The provision of
