

1. Record Nr.	UNINA9910141149403321
Titolo	Anticholinesterase pesticides [[electronic resource]] : metabolism, neurotoxicity, and epidemiology / / edited by Tetsuo Satoh, Ramesh C. Gupta
Pubbl/distr/stampa	Hoboken, N.J., : Wiley, c2010
ISBN	0-470-64050-2 1-283-10080-0 9786613100801 0-470-64049-9
Descrizione fisica	1 online resource (645 p.)
Altri autori (Persone)	SatohTetsuo, Ph. D. GuptaRamesh C <1949-> (Ramesh Chandra)
Disciplina	363.738/498
Soggetti	Cholinesterase-inhibiting insecticides - Toxicology
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	pt. 1. Metabolism and mechanisms -- pt. 2. Toxicity and biomonitoring -- pt. 3. Epidemiological studies -- pt. 4. Regulatory aspects -- pt. 5. Medical treatment of poisoning with organophosphates and carbamates.
Sommario/riassunto	"This book offers an important reference source about the most common classes of pesticides for researchers engaged in the area of neurotoxicology, metabolism, and epidemiology. The book presents details about thorough characterization of target and non-target enzymes and proteins involved in toxicity and metabolism; and epidemiology of poisonings and fatalities in people from short- and long- term exposures to these pesticides in different occupational settings on a individual country basis as well as on a global basis. The early portion of the book deals with metabolism, mechanisms and biomonitoring of anticholinesterase pesticides, while the later part deals with epidemiological studies, regulatory issues, and therapeutic intervention"--Provided by publisher.
