Collective Client Controlled Development of Space: Examples from an Amsterdam Practice; 7. Self-managed Co-housing: Assessing Urban Qualities and Bottlenecks in the Planning System 8. ConclusionsIndex; About the Contributors
Sommario/riassunto	Making Room for People elaborates on preferences in housing. It explores how users, occupants, and citizens can express their needs, searching for the enhancement of individual choice and control over their residential environment, and the predicted positive spin-off's for urban collectives. The options to make choices and to have a say in

urban design and housing matters are used as a conceptual framework.
'Choice' and 'voice' are the main concepts that structure the empirical
material.
