

1. Record Nr.	UNINA9910141258903321
Titolo	Analytical techniques for clinical chemistry [[electronic resource] ] : methods and applications / / edited by Sergio Caroli, Gyula Zaray
Pubbl/distr/stampa	Hoboken, : Wiley, c2012
ISBN	1-280-77257-3 9786613683342 1-118-27184-X 1-118-27185-8 1-118-27183-1
Descrizione fisica	1 online resource (840 p.)
Altri autori (Persone)	CaroliSergio <1943-> ZarayGyula
Disciplina	616.07/9
Soggetti	Clinical chemistry - Analysis Biochemistry
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Includes index.
Nota di bibliografia	Includes bibliographical references at the end of each chapters and index.
Nota di contenuto	Analytical Techniques for Clinical Chemistry: Methods and Applications; CONTENTS; FOREWORD; PREFACE; CONTRIBUTORS; PART I: Exploring Fundamentals; 1. Good Clinical Practice Principles: Legal Background and Applicability; Summary; 1.1. Introduction; 1.2. Good Clinical Practice; 1.2.1. ICH E6: Guidelines for Good Clinical Practice; 1.2.2. WHO Guidelines for Good Clinical Practice for Trials on Pharmaceutical Products; 1.2.3. WHO Handbook for Good Clinical Research Practice Guidance for Implementation; 1.2.4. WHO Good Clinical Laboratory Practice 1.3. Good Clinical Practice: Legal Background in the European Union1.4. Good Clinical Practice: Applicability in the European Union; 1.4.1. EU 2007 Conference on the Implementation and Applicability in the European Union of Legislation on Clinical Trials of Medical Products; 1.4.2. Directives 2001/20/EC, 2005/28/EC, and Good Clinical Practice in Case of Noncommercial Clinical Trials; 1.5. Good Clinical Practice and Bioequivalence Trials: GCP Inspections and Laboratories; 1.5.1.

General Aspects; 1.5.2. EMA Guidelines on Bioequivalence Studies  
 1.5.3. EMA Reflection Paper for Applicants Who Want to Submit  
 Bioequivalence Performed Outside the European Union 1.5.4. Good  
 Clinical Practice Bioequivalence Inspections; 1.5.5. Good Clinical  
 Practice Clinical Laboratory Inspections; 1.5.6. Good Clinical Practice  
 Inspections on Phase I Units; 1.6. Good Clinical Practice for Clinical  
 Trials with Advanced Therapy Medicinal Product; 1.7. Good Clinical  
 Practice and Clinical Trials in Developing Countries; 1.7.1. The Increase  
 of Clinical Trials in Developing Countries; 1.7.2. European Union  
 Legislation and Clinical Trials in Developing Countries  
 References 2. Clinical Chemistry and the Quest for Quality; Summary;  
 2.1. Introduction; 2.2. Quality Today; 2.2.1. General Aspects; 2.2.2.  
 Major Quality Systems and Their Scope; 2.3. Conclusions; References;  
 3. Uncertainty in Clinical Chemistry Measurements Including  
 Preanalytical Variables; Summary; 3.1. Introduction; 3.2. Analytical  
 Uncertainty in Laboratory Results; 3.2.1. General Aspects; 3.2.2.  
 Control Materials; 3.2.3. Estimating Analytical Precision; 3.2.4. Within-  
 Run Precision (Repeatability); 3.2.5. Total Analytical Precision  
 (Reproducibility)  
 3.2.6. Estimating Precision Using Duplicates 3.3. Trueness and  
 Traceability; 3.3.1. Basic Concepts; 3.3.2. Reference Methods and  
 Materials; 3.3.3. Estimating the Trueness; 3.3.4. Factorizing the  
 Patients' Results; 3.3.5. Changing Reagent Lot; 3.3.6. Analytical  
 Specificity; 3.3.7. Method Validation; 3.4. Proficiency Testing; 3.4.1.  
 Background Information; 3.4.2. Choice of EQA Schemes; 3.4.3.  
 Interpretation and Actions; 3.5. Biological Variations and Quality Goals;  
 3.6. Reference Intervals; 3.6.1. Establishing Reference Intervals; 3.6.2.  
 Transferring Reference Intervals  
 3.7. Estimating Preanalytical Uncertainty

## Sommario/riassunto

Discover how analytical chemistry supports the latest clinical research  
 This book details the role played by analytical chemistry in fostering  
 clinical research. Readers will discover how a broad range of analytical  
 techniques support all phases of clinical research, from early stages to  
 the implementation of practical applications. Moreover, the  
 contributing authors' careful step-by-step guidance enables readers to  
 better understand standardized techniques and steer clear of everyday  
 problems that can arise in the lab. Analytical Techniques for Clinical  
 Chemistry
