

1. Record Nr.	UNINA9910141263503321
Titolo	The science and practice of stuttering treatment [[electronic resource]] : a symposium // edited by Suzana Jelcic Jaksic, Mark Onslow
Pubbl/distr/stampa	Chichester [England] ; ; Ames, Iowa, : Wiley-Blackwell, c2012
ISBN	1-118-34163-5 1-118-70279-4 1-280-69816-0 9786613675125 1-118-34161-9
Edizione	[2nd ed.]
Descrizione fisica	1 online resource (270 p.)
Altri autori (Persone)	JaksicSuzana Jelcic OnslowMark
Disciplina	616.85/54
Soggetti	Stuttering - Treatment Speech therapy
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	From a symposium held in May 2010 at the Hotel Croatia in Cavtat on the Adriatic Coast.
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	The Science and Practice of Stuttering Treatment: A Symposium; Contents; List of Contributors; Preface; References; Chapter 1 Modifying Phonation Interval Stuttering Treatment Program; Overview; Modification of phonation intervals; Theoretical basis; Demonstrated value; Advantages and disadvantages; Advantages; Disadvantages; Conclusions and future directions; Acknowledgement; Discussion; References; Chapter 2 The Camperdown Program; Overview; Stage 1: Teaching; Stage 2: Instatement; Stage 3: Generalisation; Stage 4: Maintenance; Theoretical basis; Demonstrated value Advantages and disadvantagesAdvantages; Disadvantages; Conclusions and future direction; Discussion; References; Chapter 3 Assessment and Treatment of Stuttering Using Altered Auditory Feedback; Overview; Theoretical basis; Demonstrated value; Reductions in stuttering frequency; Reduced duration of stuttered events; Speech naturalness improvements; Positive self-report data; Advantages and disadvantages; Advantages; Disadvantages; Conclusions and future

directions; Discussion; References; Chapter 4 The Lidcombe Program; Overview; Theoretical basis; Demonstrated value Advantages and disadvantages Advantages; Disadvantages; Conclusions and future directions; Discussion; References; Chapter 5 Lidcombe Program with School-Age Children; Overview; Theoretical basis; Demonstrated value; Advantages and disadvantages; Conclusions and future directions; Discussion; References; Chapter 6 Intensive Speech Restructuring Treatment for School-Age Children; Overview; Instatement; Transfer; Post-intensive maintenance; Theoretical basis; Demonstrated value; Advantages and disadvantages; Advantages; Disadvantages; Conclusions and future directions; Discussion; References

Chapter 7 Student-Delivered Treatment for Stuttering: Multiday Intensive Speech Restructuring Overview; Description of programme; Theoretical basis; Student education; Treatment; Demonstrated value; Advantages and disadvantages; Advantages; Disadvantages; Conclusions and future directions; Discussion; References; Chapter 8 Review of the Successful Stuttering Management Program; Overview; Theoretical basis; Demonstrated value; Advantages and disadvantages; Advantages; Disadvantages; Conclusions and future directions; Discussion; References

Chapter 9 The Comprehensive Stuttering Program and Its Evidence Base Overview; Theoretical basis; Demonstrated value; Methods; Review of previously reported outcomes; The present study: 10 years post-treatment outcomes; Advantages and disadvantages; Advantages; Disadvantages; Conclusions and future directions; Discussion; References; Chapter 10 Telehealth Treatments for Stuttering Control; Overview; Theoretical basis; Demonstrated value; Lidcombe Program clinical trials; Camperdown Program clinical trials; Stand-alone Internet treatments; Advantages and disadvantages; Advantages; Disadvantages Conclusions and future directions

Sommario/riassunto

The Science and Practice of Stuttering Treatment: A Symposium is a comprehensive resource for practitioners and researchers that spans the scientific basis and clinical management of stutters in people of all ages, from preschoolers to adults. Written by an international team of clinical and research leaders in the field of speech and language pathology, as well as scientists from the fields of epidemiology and neurology, the book offers a truly comprehensive coverage of contemporary stuttering management. Each chapter provides information on the 'Theoretical Basis of the Treatm
