

1. Record Nr.	UNINA9910141432303321
Autore	Ropohl Günter
Titolo	Allgemeine technologie eine Systemtheorie der technik
Pubbl/distr/stampa	Karlsruhe, : KIT Scientific Publishing, 2009 Germany : , : Universitätsverlag Karlsruhe, , 2009
ISBN	2821877587 9783866443747
Edizione	[Third edition.]
Descrizione fisica	1 online resource (360 pages) : digital, PDF file(s)
Collana	KIT Scientific Publishing
Soggetti	Engineering & Applied Sciences Technology - General
Lingua di pubblicazione	Tedesco
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Bibliographic Level Mode of Issuance: Monograph
Nota di bibliografia	Includes bibliographical references and indexes.
Sommario/riassunto	General technology, the study of the fundamental principles of technology, combines technical and social science knowledge with philosophical considerations. The book uses numerous examples to deal with the diverse problems and facets of mechanization, in which human actors and technical artifacts combine to form socio-technical systems. It analyses the conditions and consequences of the use of technology as well as the pattern of technical development.
