Sommario/riassunto	This compelling contribution to contemporary debates about the banking industry offers a unique perspective on its geographical and conceptual 'placement'. It traces the evolving links between the two, revealing how our notions of banking 'productiveness' have evolved alongside the shifting loci of banking activity. An original contribution to the urgent debates taking place on banking sparked by the current economic crisis Offers a unique perspective on the geographical and social concept of 'placement' of the banking industryCombines theoretical approache
