

1. Record Nr.	UNINA9910141489503321
Titolo	The ECG for prehospital emergency care [[electronic resource] /] / edited by William J. Brady ... [et al.] ; advisory editors, Kostas Alibertis ... [et al.]
Pubbl/distr/stampa	Chichester, West Sussex, U.K., : John Wiley & Sons, 2013
ISBN	1-118-47374-4 1-118-47373-6 1-299-15882-X 1-118-47376-0
Descrizione fisica	1 online resource (363 p.)
Altri autori (Persone)	BradyWilliam <1960-> AlibertisKostas
Disciplina	616.1207547
Soggetti	Electrocardiography Heart - Diseases Cardiovascular emergencies Medical emergencies Emergency medicine Electronic books.
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	section 1. The ECG in prehospital patient care -- section 2. Cardiac rhythms and cardiac dysrhythmias -- section 3. Acute coronary syndrome and the 12-lead ECG -- section 4. Special populations, high-risk presentation scenarios, and advanced electrocardiographic techniques -- section 5. Electrocardiographic differential diagnosis of common ECG presentations.
Sommario/riassunto	Now that state of the art equipment can be carried in ambulances, prehospital emergency staff are able to perform an ECG soon after arrival on scene, enabling the EMS provider to gather important diagnostic information that can not only guide prehospital therapy but also direct hospital-based treatment. This book exclusively addresses ECGs for prehospital emergencies, ranging from basic rhythm diagnosis

to critical care applications of the electrocardiogram and advanced 12-lead ECG interpretation in the ACS patient. It provides self testing traces covering all these conditions seen in preh
