

1. Record Nr.	UNINA9910141503603321
Autore	Van Emden H. F (Helmut Fritz)
Titolo	Handbook of agricultural entomology / / H.F. van Emden
Pubbl/distr/stampa	Hoboken, N.J., : Wiley-Blackwell, 2013
ISBN	9781785393631 1785393634 9781118469347 1118469348 9781299159143 1299159141 9781118469552 1118469550 9781118469590 1118469593
Edizione	[1st ed.]
Descrizione fisica	1 online resource (336 p.)
Disciplina	632/.7
Soggetti	Insect pests
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	The world of insects -- External features of insects - structure and function -- The major divisions of the Insecta -- Subclass Apteriygota -- Subclass Pterygota, division Exopterygota, Palaeopteran orders -- Subclass Pterygota, division Exopterygota, Orthopteroid orders -- Subclass Pterygota, division Exopterygota, Hemipteroid orders -- Subclass Pterygota, division Endopterygota, lesser orders -- Subclass Pterygota, division Endopterygota, order Lepidoptera (butterflies and moths) -- Subclass Pterygota, division Endopterygota, order Diptera (true flies) -- Subclass Pterygota, division Endopterygota, order Hymenoptera (sawflies, ants, bees and wasps) -- Subclass Pterygota, division Endopterygota, order Coleoptera (beetles) -- Class Arachnida.
Sommario/riassunto	Handbook of Agricultural Entomology by Helmut van Emden is a landmark publication for students and practitioners of entomology applied to agriculture and horticulture. It can be used as a reference

and as a general textbook. The book opens with a general introduction to entomology and includes coverage of the major insects (and mites) that cause harm to crops, livestock and humans. The important beneficial species are also included. Organisms are described in a classification of insect Orders and Families. The emphasis is on morphological characters of major taxonomic divisions
