Public Health Work in the British Occupation Zone -- 6. Public Health Work in the American Occupation Zone -- 7. Public Health Work in the Soviet Occupation Zone--
Sommario/riassunto	This is an archive-based study examining how the four Allies - Britain, France, the United States and the Soviet Union - prepared for and conducted their occupation of Germany after its defeat in 1945. It uses the case of public health to shed light on the complexities of the immediate post-war period.
