

1. Record Nr.	UNINA9910141829903321
Titolo	Waste as a Resource // edited by R.M. Harrison and R.E. Hester
Pubbl/distr/stampa	Cambridge, : Royal Society of Chemistry, 2013
Edizione	[1st ed.]
Descrizione fisica	1 online resource (253 p.)
Collana	Issues in environmental science and technology ; ; v.38
Altri autori (Persone)	HarrisonR. M HesterR. E (Ronald E.)
Disciplina	628.4
Soggetti	Recycling (Waste, etc.) Salvage (Waste, etc.)
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references and index.
Sommario/riassunto	This volume of Issues in Environmental Science and Technology examines the potential resource available from several waste streams, both domestic and industrial. Opportunities for exploiting waste are discussed, along with their environmental and economic considerations. Landfill remains an unavoidable solution in some circumstances, and the current situation regarding this is also presented. Other chapters focus on mine waste, the recovery of fertilisers, and the growing potential for compost.
