

1. Record Nr.	UNINA9910141912303321
Titolo	Mobile Services (MS), 2014 IEEE International Conference on // Institute of Electrical and Electronics Engineers (IEEE)
Pubbl/distr/stampa	Piscataway, New Jersey : , : Institute of Electrical and Electronics Engineers (IEEE), , 2014
ISBN	1-4799-5060-2
Descrizione fisica	1 online resource (xiv, 156 pages) : illustrations
Disciplina	621.382
Soggetti	Cell phone systems Mobile computing Mobile communication systems
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Sommario/riassunto	Wireless and ubiquitous connectivity have enabled mobile computing and Internet access on the go as a life enhancing and indispensable experience of modern life Mobile networks has become a new services consumption and delivery platform for many industries and government organizations worldwide The 2014 IEEE International Conference on Mobile Services (MS) aims at providing an international forum that is dedicated to explore different aspects of mobile services, from business, management to computing systems, algorithms, and applications and to promote technological innovations in research and development of mobile services, including, but not limited to, wireless networks, sensor networks, mobile computing, mobile enterprise, mobile eCommerce, collaborative computing and social networks As an integral part of the Federated Conferences in Service Computing, sponsored by IEEE Computer Society since 2003, research papers accepted by IEEE MS 2014 will be presented to a broader audience.
