

1. Record Nr.	UNINA9910142060603321
Titolo	2000 IEEE Standard for Passenger Train Auxiliary Power Systems Interfaces
Pubbl/distr/stampa	[Place of publication not identified], : IEEE
ISBN	0-7381-1965-2
Descrizione fisica	1 online resource
Disciplina	385
Soggetti	Railroads
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Bibliographic Level Mode of Issuance: Monograph
Sommario/riassunto	The electrical interfaces among the components comprising the auxiliary power systems and their electrical interface with other train-borne systems are described. As such, this standard treats the auxiliary power system components (e.g., static inverters and converters, low-voltage dc power supplies, back-up battery systems, and battery chargers) as black boxes and addresses only their interface requirements.
