

1. Record Nr.	UNINA9910142308003321
Titolo	WCW 2005: 10th International Workshop on Web Content Caching and Distribution
Pubbl/distr/stampa	[Place of publication not identified], : IEEE Computer Society Press, 2005
ISBN	9781509098569 1509098569
Descrizione fisica	1 online resource (viii, 151 pages) : illustrations
Altri autori (Persone)	BiersackErnst RodriguezPablo (Rodriguez Rodriguez)
Disciplina	005.4/35
Soggetti	Cache memory
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Bibliographic Level Mode of Issuance: Monograph
Sommario/riassunto	Annotation Starting from basic caching, research in content distribution is broadening its scope to cover practically all areas related to the intersection of content and networking, including P2P, data grid computing, utility and edge computing, application networking, wireless content delivery, and pervasive networking. WCW 2005 delivers a strong technical program that covers the newest and most interesting areas relating to Internet content delivery services.
